

PRINTING IS ART... SPEAKING OF : HIGH DEFINITION PRINTING

About High Definition Printing & :Sublima Screening

Different :Sublima Screening technologies can be chosen to fit different production requirements.

For Pacific Printing, :Sublima means: ease of use, stability on press, normal on-press color correction, improved performance of the CTP system, and the flexibility to choose the perfect matching screen for your job.

For the print buyer, with the flexibility and wide range of :Sublima XM-screening possibilities, we can meet all the possible expectations: high image quality, fine details, highlight and shadow detail, and spot color look with CMYK, at no extra cost.
